About Me

I am an Information Technology student developing practical skills in front-end web development, AI prompting, AI-assisted content creation, research, design, and digital technology. I enjoy turning ideas into interactive websites and using modern AI tools to improve my creative and development workflow.

I am currently developing my professional skills rather than presenting myself as an expert. My goal is to keep learning, build useful projects, and grow into a strong technology professional.

Education

Federal University of Lafia

B.Sc. Information Technology — In Progress

Skills

Web Development	HTML • CSS • JavaScript • Responsive Design • Git • GitHub • VS Code • AI-Assisted Development
AI & Creative Tech	AI Prompting • AI Content Creation • AI-Assisted Design • AI Creative Workflows • Research with AI
Design & Content	Canva • Photoshop • Premiere Pro • Graphic Design • Video Editing • Social Media Visuals
